

Settling you in comfortably....
in more ways than one.

Make buying a new home in a new country easy joyful ...affordable.

BMP Re-Lo is a one-of-a-kind 'settling you in' company that can help you get furniture, appliances, blinds, lighting, electronics and systems (FABLES) and have these installed exactly the way you want.

Our knowledge of the products themselves and our contacts with key wholesalers, Zona Libre (i.e. Free Zone) importers and most Panama City retailers will result in substantial savings - which will more than cover our service fee - . and present an array of international brands to choose from.

Other unique services include installation of multi-lock security doors, designer window grills (that look like window frames) and arrangements required for phone, fax, internet and cable connections within the dwelling.

**Everything is customized
to the homeowner's taste and budget.**

Start off comfortably

Call one of our knowledgeable and friendly bi-lingual Customer Service Reps to explain what you require - both in terms of brand/design and budget.

You will then be presented with the options available for each service and product category. Upon finalization, a CSR will accompany you to select the various products you require and finally present you with a detailed quotation for each product category selected, showing the savings you have made.

Pay for it comfortably

Trust us, you will make huge savings through us and you can see this on paper. Also, our payment terms are easy to understand.

BMP Re-Lo charges a flat fee, which is quoted after discussing the project with you. Payment is 100% in advance. In addition, BMP Re-Lo charges for any long distance travel and miscellaneous incidentals incurred. Quotes will be provided for each product and service selected including delivery and installation. All vendors are paid directly by BMP Re-Lo.

Settle in comfortably

**BMP Re-Lo organizes
economical deliveries and
professional installation.**

**Everything is inspected and tested by our CSRs
and all Warranty and Guarantee papers are
handed over to you in a handy BMP Re-Lo
plastic pouch on completion.**

Coordination with Property Developers:

When it comes to activating or repairing incomplete or non-working electrical, plumbing and construction connections within the new dwelling, we interface with the Property Developers to get them to complete their obligations.

Most homeowners hire us as Property Managers.

Custom Installations:

All custom installations (Air Conditioner Splits, Blinds/Curtains, Window Safety Grills, Security Doors, Lighting systems) are undertaken by professionals from each vendor under the supervision of a BMP Re-Lo CSR. After a BMP Re-Lo pricing analyst has checked vendor quotes, they are presented to you for approval and payment.

Installation by the vendor takes place as soon as payment has been received.

Utilities & Communications Providers:

Installation of electricity, phone/fax, internet, cable connections inside the specific unit is often the responsibility of the Owner. This requires each Owner to interface with these institutions, often with frustrating results.

BMP Re-Lo handles all this for the Owner.

Timelines & Deadlines:

BMP Re-Lo will try it's best to stay within timelines agreed upon with the homeowner.

BMP Re-Lo CSRs proactively contact all vendors just prior to the measurement or installation date in an attempt to alleviate this problem.

Settling you in comfortably....
