
Home Inspections and Appraisals

Home Inspections and Appraisals Best Mortgages Panama keeps a roster of Qualified Home Inspectors and works with a professional Home Appraisal team, both of whom are recognised and accepted by all major banks and real estate agencies in Panama. Since it is necessary to know the commercial value of property in the market at the moment you wish to buy or sell, Best Mortgages' expert teams can inspect, assess and appraise the property you are interested in, which in turn will impact the value of the property. It will update the registered value of the property as per market value and allow you to pay a 10% lower (catastral) tax from your earnings at the time of sale (in accordance with Law 6, passed on February 2, 2005, unless changed).
